Next-generation of multi-function cash access

Reduce wait times and deliver customized marketing to the casino floor with OmniStream™. These sleek, multi-functional, full-service kiosks feature a compact design for easy installation in a floor environment without compromising visibility or capacity. Complete with the most technically advanced PCI-compliant components on the market, OmniStream™ is unmatched in hardware, security, fraud prevention, reliability, and uptime.

PREMIUM EXPERIENCE

OmniStream™ enables patrons to complete ticket redemptions, ATM transactions, bill breaking, check warranty, cash advance transactions, and TITO Ticket Purchase without visiting the cage.

REDUCE WAIT TIMES

OmniStream™ is a one-stop cash access touchpoint for patrons to avoid lines at the cage.

NATIONWIDE HARDWARE SUPPORT

OmniStream™ is available with best-in-class, nationwide hardware support to ensure high levels of uptime.

LOCAL BILL MIX

OmniStream™ delivers an enhanced user experience with customized currency selection. Optimizes currency/bill consumption for the Casino.

Improve Patron Experiences and Reduce Wait Times

Reduce wait times and deliver customized marketing to the casino floor with OmniStream™. From ticket redemption to full-function ATM, OmniStream™ is designed to be a one-stop touchpoint for patrons and move cage-based transactions to the casino floor for a superior experience.

Designed to exceed the demands of high-traffic casinos, OmniStream™ offers an enhanced patron experience with large capacity cassettes to reduce downtime and an efficient loading system to ensure reloading is completed quickly. OmniStream™ provides complete hardware confidence with modern security features and unmatched nationwide hardware support.
