

Origins™ Promo Kiosk

Self-Service Loyalty & Promotions, Anywhere on the Property

A more accessible loyalty experience.

Origins™ Promo Kiosk extends the reach of a property's loyalty program beyond the central loyalty center — putting account information, rewards, and promotions directly in front of guests wherever they are. The result is greater visibility into loyalty offers, increased participation, and a modern, self-service touchpoint that keeps guests engaged across the floor and resort.

- Extends existing casino loyalty kiosk programs by providing convenient guest access points throughout the property.
- Allows guests to quickly check loyalty account balances, view available rewards, and access promotional offers without visiting a central loyalty center.
- Provides self-service redemption of offers, rewards, and promotional incentives directly at the kiosk.
- Drives engagement through interactive promotional games — giving guests a chance to play, win, and add excitement property-wide.
- Expands customer touchpoints into high-traffic areas across the resort.
- Available in freestanding floor-mounted or wall-mounted configurations for flexible deployment.
