

Pay@Play™

Table Payment Solution

- Fast and Easy Transactions
- Chip Purchase or Cashouts
- Advanced Fee Control
- Easy Installation in any Casino Environment
- Secure Solution with Fully Tokenized Card Data

Fast and Secure Table Transactions

Pay@Play™ offers a seamless blend of speed and security. Catering to the diverse payment preferences of players, Pay@Play offers various card transaction options at the table, delivered in seconds. The streamlined process significantly reduces the need for dealer involvement, allowing the player to enjoy quick, hassle-free transactions.

DIRECT CASH ACCESS AT THE TABLE

Pay@Play brings cash access directly to the customer without them leaving the table.

INCREASE EFFICIENCY

By purchasing and cashing out chips at the table, Pay@Play increases operational efficiency and reduces cage visits.

COMPACT AND PORTABLE

The device terminal is purposely designed to be compact and portable, and for easy installation in any casino environment.

CUSTOMER DRIVEN

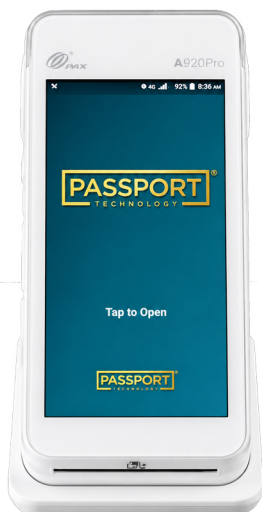

The intuitive customer-driven transaction minimizes dealer involvement.

Benefits

- Brings cash access directly to the customer
- Purchase chips or instantly payout winnings with a debit card
- Simple transaction keeps customers engaged in table play
- Safely distribute winnings electronically without cash liability
- Pay or receive funds with CashLoop™ digital wallet
- Integrated with Passport IQ™ reporting and Guardian Pro® AML
- Easy to use, manage, and scale
- Advanced fee control with Dynamic Pricing, including VIP discounts
- Allows employees to focus on guest experience and customer service
- Efficient, compact, and portable design

Fast Cash Access at the Table

Pay@Play delivers modern cash access directly to customers at the table. Purchase chips by tapping or inserting any PIN-based debit card, and instantly transfer winnings back to a debit card to dramatically reduce cash handling needs. Opening an even broader range of fund access, customers can also pay using their CashLoop™ digital wallet. Created to serve the diverse needs of today's casino establishments, Pay@Play offers fast transaction times and intuitive screens to ensure game-flow remains undisturbed. The solution features a sleek all-in-one payment device which can be passed around the table for privacy and convenience. Pay@ Play integrates with Passport IQ reporting and Guardian Pro® compliance to give operators a holistic view of all financial activities.
